

The Philippine Specialty Board of Pulmonary Medicine

Chairman: Dr. Norman L. Maghuyop

The Philippine Specialty Board of Pulmonary Medicine was constituted on March 30, 2022, after which preparation for the board examination started immediately. The Code of Procedures was revised and updated. Analysis of the prior year's examination was performed. The test blueprint was generated and the source materials were selected. Multiple workshops on test construction were conducted. The exam questions were drafted, critiqued, edited and finalized by the members of the Board. The exam was evaluated by an external expert. The examinees as well as examiners were oriented on the conduct of the exam.

The written and oral examination were administered on January 25 and February 5, 2023 by the Board in partnership with the FEU-NRMF Testing Center at the PCCP office. Select Fellows of the College administered the oral examination. The results and the recommendations of the Specialty Board were presented to the Executive Board on the same day of the examination.

A total of 45 examinees passed the examination. They were conferred the title of "*Diplomate*" of the College in the induction ceremony during the 42nd Annual Chest Convention on March 7, 2023.
