

ANNUAL REPORT 2024

APRIL

In celebration of the World TB Day, PCCP Negros in collaboration with PSMID Western Visayas gathered all Baranggay Healthcare Workers who are in charge of the TB DOTS Program of Bacolod City in Ayala Capitol Central last April 2024 for an interactive TB Relearning Activity. The event was participated by more than 150 BHWs in the hope of updating and streamlining their knowledge about Tuberculosis.

Ditch toxicity.
Breathe freely.

WORLD NO TOBACCO DAY 2024
MAY 31, 2024

PROGRAM STRUCTURE

- **VENUE:** AROUND BACOLOD CITY
- **PRE-PROGRAM**
 - MOTORCADE
 - 830 AM ASSEMBLE AT NGC
 - 930 AM START OF MOTORCADE
 - TARPAULIN WILL BE DISTRIBUTED DURING THE ASSEMBLY TIME
 - ARRIVAL AT SM CITY BACOLOD
 - ZUMBA (15-30 MINUTES)

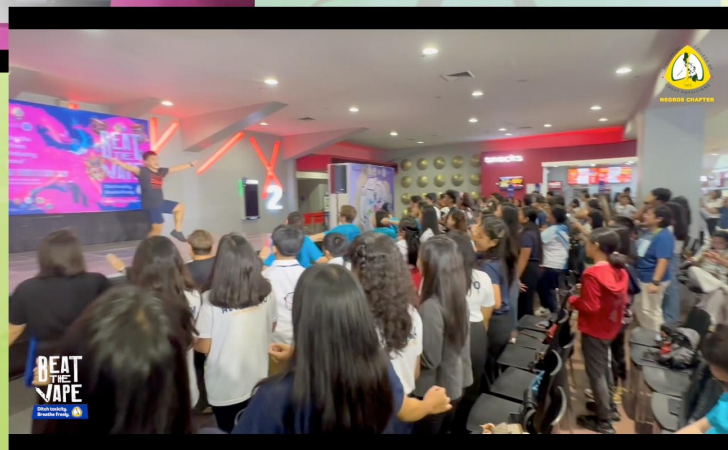

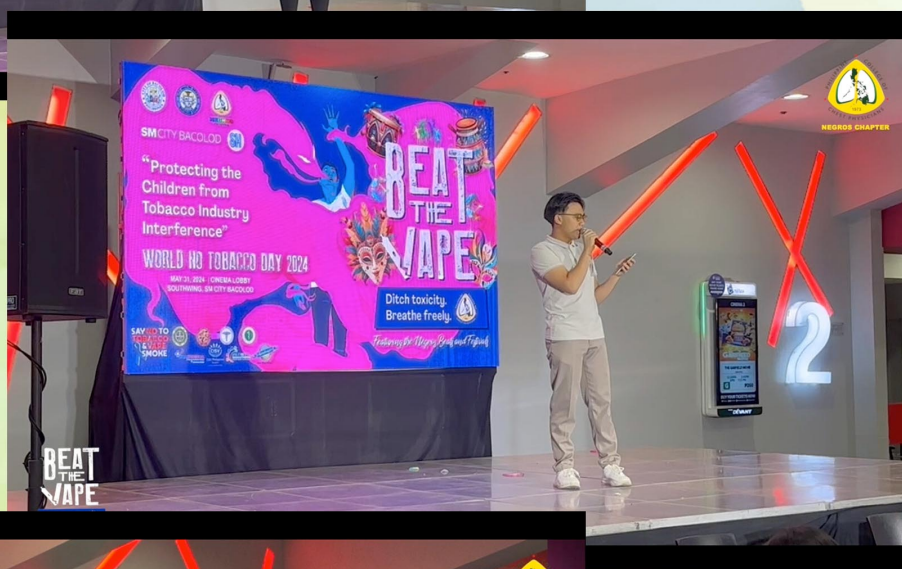

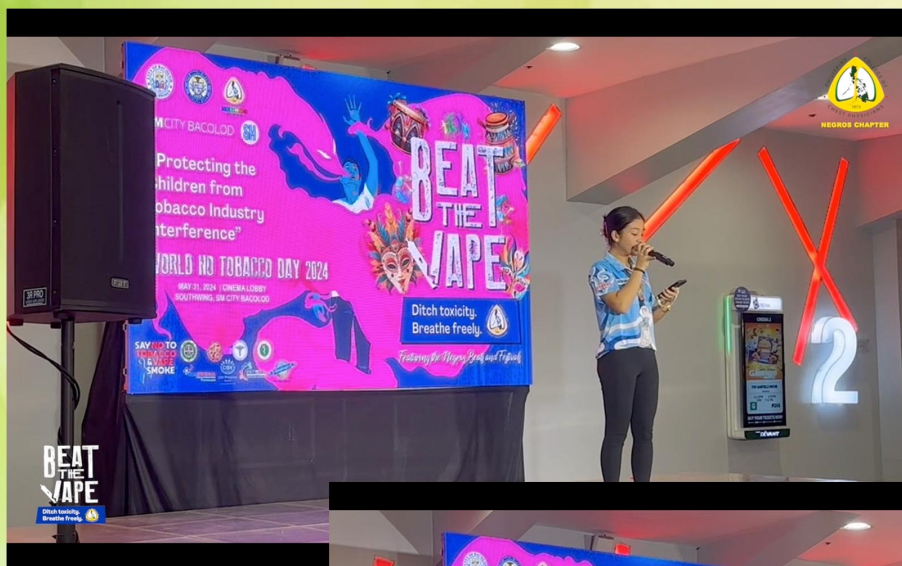

The **WORLD NO TOBACCO DAY** was successfully held in collaboration with the City of Bacolod, No Smoking Task Force of the City, Local Medical Societies and Senior High School students all over Negros Occidental last May 31, 2024.

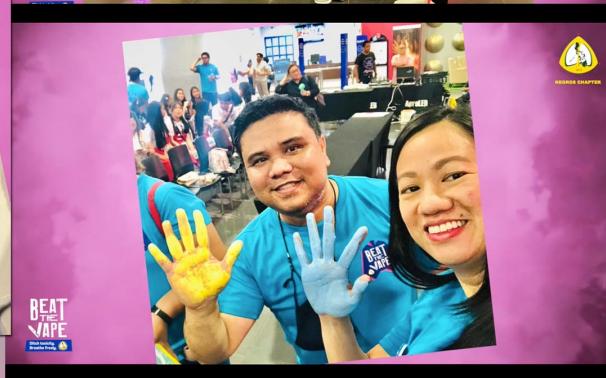

The event was started with a city wide motorcade activity and followed by a festive Zumba opening. Messages and testimonies from different sectors were heard including the voices of our dear students.

The program also included the MOA signing of the City Health Office of Bacolod, Philippine Pediatric Society-Negros Chapter and Philippine College of Chest Physicians-Negros Chapter. The MOA contains the official collaboration of these organizations in educating the youth about the dangers of Smoking and Vaping through various activities and sustainable programs.

To cap the event, we joined the simultaneous hand print activity nationwide as a sign of our commitment in this advocacy.

PCCP NEGROS AND 10,000 TREES NEGROS OCCIDENTAL

The Philippine College of Chest Physicians Negros Chapter continues to amplify the PCCP advocacies especially its TREE PLANTING ACTIVITY with the goal of planting **10,000 TREES TO HELP EVERY FILIPINO BREATHE BETTER.**

Last August 11, 2024, PCCP Negros in collaboration with other local medical societies went to Brgy. Bocana, Municipality of Ilog in the southern part of Negros Occidental for a **Mangrove Planting, Coastal Clean Up and a talk on Climate Change & Diseases and Vertical Farming/Slow Food Workshop.** This year's advocacy activity also revived our local advocacy group **TUG-AN: A Promise of Less Plastic Waste** where Dr. Ronel Sario, President of PCCP Negros Chapter, is a Co-founder.

To make this tree planting activity more sustainable and long term we collaborated with **1 MILLION TREES PROJECT of NEGROS WOMEN FOR TOMORROW FOUNDATION INC.** The 5,000 mangroves that were planted will be taken cared of by the women of Brgy. Bocana and their families. Solar lamps and vertical farm platforms were also donated to the community.

Mangroves does not only provide greenery to the ecosystem but also protection from erosion of the nearby communities. They also minimize the impact of storm surges during extreme weather conditions.

CERTIFICATE OF APPRECIATION

Is hereby presented to

PHILIPPINE COLLEGE OF CHEST PHYSICIANS NEGROS CHAPTER

For actively participating in the *Padayon ang Tug-an*, a mangrove planting activity held on August 11, 2024, at Brgy. Bocana, Municipality of Ilog. With your effort, we have successfully planted 5,000 mangrove seedlings.

Given this 12th day of August 2024

Princess Bal-Aan

Campaign Lead
One Million Trees

The TREE PLANTING was then followed by a COASTAL CLEAN UP and a WORKSHOP on CLIMATE CHANGE AND DISEASES, SLOW FOOD AND VERTICAL FARMING.

Literally it takes a village to fulfill this vision but once people from different sectors work together this simple dream will surely become the future generation's most valuable inheritance from our generation.

PCCP NEGROS AND 10,000 TREES NEGROS ORIENTAL

The Philippine College of Chest Physicians Negros Chapter's NEGROS ORIENTAL counterpart also had a mangrove planting activity in Tanjay Boardwalk, Negros Oriental last September 7, 2024.

Along with other local medical societies, they were able to plant 300 seedlings in a muddy shoreline of Tanjay. Truly a testament of dedication for the PCCPs advocacy of **10,000 TREES TO HELP EVERY FILIPINO BREATHE BETTER.**

A surprise **TRIBUTE: A Night of Gratitude** was held to honor our Senior Pulmonologists who started the practice of Pulmonary Medicine in Bacolod City. The event was held in an old mansion in the city where previous gatherings of aristocrats were held pre Japanese and American colonization just fitting for our well loved mentors/parents in the field of lung health.
